

HIKE No. 2807 - Credit Island - Davenport, IA

Saturday, January 6, 2024 – 1:30 PM

Credit Island is a city park in the Mississippi River. It has an underlay of bedrock which allows the growth of Oak trees on the northern two-thirds of the island. These trees are not typically found on islands. Much of the area has been cleared and sown to lawn grass, but almost unaltered bottomland forest can be found on the downstream third of the island.

We should see Bald Eagles and if we're lucky, Pileated Woodpeckers. Bring your own water and a snack.

Directions: From Bettendorf: Make your way to East River Dr. - US-67. Follow East River Dr. which will become West River Dr, US 61. Turn left onto Credit Island Rd., drive straight to the Credit Island Lodge on the right. 2200 W River Dr Davenport, IA.

Committee: **Shellie Darr**, Tom Cline, Amy Costello

Director: Shellie Darr
